

Students enrolled in Digital Art 1 at Eaglecrest High School will spend the semester exploring the world of design. The purpose of this course is to teach students how to apply design principles to visually communicate through printed, environmental and digital media utilizing Adobe Illustrator and Adobe Photoshop. There will be written assignments and homework throughout the semester. Students are expected to be active members of class discussions, critiques and demonstrate professionalism in time management and leadership. There will be a number of art shows this year in and out of the building, and your work will be submitted to these shows and the school website for display. By the end of the semester, Digital Art 1 will leave you prepared for more advanced classes and/ or artistic endeavors in design.

**This is a Concurrent Enrollment Course with CCA
ART 131**

Supplies

- 8GB or larger Flash Drive
- \$30 Course Fee
